

The Future of Perpetual Yield in DeFi

Redefining **sustainable crypto yield** through advanced financial engineering.

The Problem

Despite explosive growth in DeFi, investors still face:

- **Unstable** and unsustainable yield models
- **High risk** exposure from impermanent loss & lack of custody
- **Low transparency** and inefficient markets
- **No scalable solution** for long-term consistent yield

Our Solution

1xMM Pools leverage proprietary instruments like Perpetual Constant Maturity Options (PCMOs) and synthetic perpetual futures to enable:

- **Consistent, low-risk returns**
- **Full asset control** & zero insolvency risk
- Institutional-grade **transparency**
- **Cross-chain**, frictionless user experience

1xMM Token features:

-  Access to **exclusive pool** rebates
-  Deflationary & **auto-burning** mechanism
-  Up to **6% APY** via staking pool
-  **ERC677 + ChainLink** for seamless interoperability

Business Model

- **Pool-based** transaction fees
- **Yield-sharing** from liquidity strategies
- **Layered monetization** through ecosystem services
- **Scalable infrastructure** targeting Metabank positioning

Market Opportunity

-  DeFi projected to exceed **\$200B+ TVL** by 2026
-  **High demand for yield** – underserved in alt-coin space (\$80B+)
-  **First-to-market with PCMOs** – bridging risk-managed TradFi models into DeFi

Traction & Technology

- Smart contracts and Layer 2 infrastructure already **80% complete**
- **Unique go-to-market strategy** via gamified MVP and educational content
- **Designed for mass adoption:** cross-chain, mobile-ready, and regulation-aware

Roadmap

-  **Q2 2025:** Token launch + gamified MVP
-  **Q3 2025:** Platform live (web)
-  **Q4 2025:** Multi-chain deployment + mobile app
-  **2026:** Launch of Decentralized Order Book and full ecosystem build-out

We're Raising

Seeking strategic capital and visionary partners to:

- **Scale** globally
- **Accelerate** go-to-market
- **Cement** 1xMM as a category-defining DeFi yield solution
